Description:

Larry McMurry returns to the Old West in a fast-moving, comic tale about a woman determined to conquer anything that stands in the way of an ultimate confrontation with her wayward husband. In his first historical novel in ten years, Larry McMurry introduces Mary Margaret, a nineteenth-century version of the formidable, unforgettable Aurora Greenway of *Terms of Endearment*. Mary Margaret is married to Dickie, who hauls supplies to the forts along the Oregon Trail and, as Mary Margaret rightly suspects, enjoys the pleasures of other women across most of the frontier. Fed up and harboring a secret love of her own, she collects the kids; her brother-in-law, Seth; her sister, Rosie; and her cranky father and makes her way westward to settle things once and for all. The story of their trek across the country is packed with the elements McMurry fans

love: encounters with historical figures such as Wild Bill Hickock and U.S. Army colonel Fetterman (whose incompetence resulted in one of the bloodiest massacres in the history of the American West), larger-than-life fictional characters who join the family on their journey, and confrontations with nature at its wildest. With characters based on actual traders of the Old Santa Fe Trail, Boones Lick is vintage McMurtry.

I am a die-hard Larry McMurtry fan and have read many of his novels, all of which I have enjoyed. No one quite captures the Old West as well as him. His laconic sense of humor and dialogue drops you right into the middle of the story. Your pace of reading slows down and you become a part of the wonderful stories he weaves. This novel revolves around a Mother who decides on a whim to pick up and search for her long lost husband in Wyoming. The family has many adventures along the way, meeting an intriguing cast of miscreants and misfits. Its a highly entertaining, sometimes hilarious read and highly recommended.
